Fusible Fleece

**GENERAL DIRECTIONS:**

1. Cut Fusible Fleece to the desired size.
2. Place Fusible Fleece, fusible side up, on the ironing board. Place fabric, right side up, on top of fleece.
3. Fuse by pressing outwards from the center of project for approximately 10 seconds per section, lifting and slightly overlapping until entire area is fused.

**TIPS:**

- **For a Light Bond:** With iron at “Wool/Steam” setting, iron fabric in place. For most applications, this should hold the fleece for easy handling while the project is stitched and/or glued.
- **For an Extra-Strong Bond:** Cover fleece and fabric with a damp press cloth. With the iron at “Wool/Steam” setting press 10-15 seconds. ALWAYS USE A DAMP PRESS CLOTH AND PRESS DOWN FIRMLY. Repeat, overlapping iron until entire area is fused. For additional loft, use more than one layer of fleece.

**NOTE:** Always pre-test with a swatch of your fabric before fusing to make sure it is compatible with the fuse.

**CONTENTS:**

- **Fiber Content:** 100% Polyester
- **Care Instructions:** Machine wash warm delicate cycle. Tumble dry low or dry clean.

**ACOLCHADOS VELLÓN**

Legacy Fusible Fleece es un vellón de un faz termoadhesivo de baja densidad que proporciona suavidad a las labores manuales, accesorios para el hogar y prendas de vestir. Sin usar afililes...Sin hilvarar...Sin coser! Se puede adherir a la tela, cartón o madera. Es adecuado para máquinas de coser.

**NOTA:**

- Siempre realiza una prueba en un pedazo de tela antes de usar para verificar que la tela es compatible con el adhesivo.

**DIRECCIONES DE USO:**

1. Corte Fusible Fleece al tamaño deseado.
2. En la mesa de planchar coloque el lado adherivo del vellón hacia arriba. Coloque la tela encima del vellón en el lado derecho hacia arriba.
3. Adhiera presionando la plancha hacia afuera del área por aproximadamente 10 segundos, levante y presione hasta que este fusionado por completo.

**CONTENIDO DE FIBRA:**

- **100% Poliéster**

**INSTRUCCIONES DE MANTENIMIENTO:**

- Lavado a máquina en agua tibia, en ciclo delicado y secar en seco.
- Nivel: Principiante

**CONSEJOS:**

- **Para un Adherido Ligero:** Con la plancha a temperatura “Lana/Vapor” coloque la tela en la posición deseada y planchela. En la mayoría de los casos, esto mantendrá el vellón en su lugar mientras hilvana y/o pega la manualidad.
- **Para un Adherido Extra Fuerte:** Cubra el vellón y la tela con un paño húmedo. Con la plancha a temperatura “Lana/Vapor,” planche de 10 a 15 segundos. Repita, levantando y moviendo la plancha hasta que toda la sección esté adherida. Para mayor grosor, use más de una capa de Fusible Fleece.

**MATELASSAGE FLEECE**

Legacy Fusible Fleece ajoute une couche moelleuse pour la décoration d’intérieur, travaux artisanaux et vêtements. Pas d’épingles...Pas de faufils...Pas de coutures! Peux adhérer aux tissus, cartons, ou bois. Ce produit est facile à utiliser sur tissu, carton et papier. Assurer de sa compatibilite avec la machine à coudre.

**NOTE:**

- Faite toujours un test de l’Entoilage Molletonné Thermocollant sur un échantillon de votre tissu avant de fuser.

**MODE D’EMPLOI:**

1. Coupez l’Entoilage Molletonné Thermocollant selon la forme de votre choix.
2. Placez l’entoilage sur une planche à repasser, côté adhésif vers le haut. Placez votre tissu sur l’entoilage (l’endroit vers le haut.)

**CONSEILS:**

- **Pour une Adhésion Légère :** Repassez votre tissu sur l’entoilage à température Laine/Vapeur. Dans la plupart des cas, cela maintiendra l’entoilage en place, facilitant la couture et/ou la fusion.
- **Pour une Adhésion Extra-Forte:** Couvrez d’une patte mouille l’entoilage et le tissu. Réglez votre fer à température Laine/Vapeur et pressez pendant 10 à 15 secondes. Répitez l’opération sur toute la surface en supposant que le fer sur les bords de la fusion précédente. Pour plus d’épaisseur, ajouter d’autres couches d’entoilage.

**ENTRETENIMENT:**

- **100% Polyester**
- **Lavage à la machine tiède, cycle délicat. Séchage doux à la machine ou nettoyage à sec.**

**CREATE WITH LEGACY:**

- **Key Fob Wristlet**
- **Dessinateur : Karin Jordan**
- **Niveau de compétence : Novice**

**TIPS:**

- For a Light Bond - With iron at “Wool/Steam” setting, iron fabric in place. For most applications, this should hold the fleece for easy handling while the project is stitched and/or glued.
- For an Extra-Strong Bond - Cover fleece and fabric with a damp press cloth. With the iron at “Wool/Steam” setting press 10-15 seconds. ALWAYS USE A DAMP PRESS CLOTH AND PRESS DOWN FIRMLY. Repeat, overlapping iron until entire area is fused. For additional loft, use more than one layer of fleece.

**NOTE:** Always pre-test with a swatch of your fabric before fusing to make sure it is compatible with the fuse.
